

COMPANY PROFILE

Manufacturers of Organic Waste Converters

www.solwearth.com

Introduction

Solwearth Ecotech Private Limited, one of the largest manufacturers of organic waste converters based in Kerala with manufacturing facilities at Cochin & Bengaluru. Established in 2014 Solwearth has marked a strong presence in India with its operations at Tamilnadu, Karnataka, Andhra, Telangana, Mumbai, Pune, Goa, Kolkata and New Delhi with sales and technical teams to support the installations. Solwearth is backed with the strength of highly qualified technocrats and a team of committed support staff. Solwearth is focused on high quality manufacturing by setting international standards for the entire range of products. With continued research & development and manufacturing techniques, Solwearth assures to deliver the best sustainable solutions for food waste handling.

Our Philosophy

Preservation of the Eco-System. Manufacturing innovative Waste Disposal Equipment that are simple to operate, easy to maintain and of international quality, combined with cost effectiveness.

Effective use of output from the Machine is also our major focus.

Ultimate customer satisfaction by ensuring prompt after sales service is our commitment to customers who invested their trust in us.

Continuous R & D to upgrade our Machines keeping pace with technological advancement worldwide.

Our Specializations

Complete and simple solution for Food / Organic waste disposal.

Offering comprehensive waste management solutions by tying up with other companies specialized in conventional processes to suit the requirement of large Public Sector undertakings and Corporates.

Core Team

Aravind PS (Founder & CEO)

Twenty six years of “hands on” experience as a Engineer in Design, Manufacturing and Production of Industrial Engineering products such as Printers, Mechanical Seals, Pneumatic automation components, Material handling systems etc.

Started career with Transmatic Systems Limited, Trivandrum, and performed various roles and spent considerable time working in various automation projects in India and overseas, challenging as well as a great learning experience. After few years left the employment and started his own venture - TMC Automations, based in Kochi focused on trading and service of industrial automation equipments. Executed various automation projects in India and abroad. Started overseas operations based out of UAE from 2005 to 2011.

In March 2014, started Solwearth Ecotech, designed and developed a unique Organic Waste Management Machine which was different from the existing models. Technology innovated by himself and it is well accepted and appreciated by around 200 Corporate Customers across India. The Company is now listed at the top in the Swatch Bharath Empanelment done by National Seeds Corporation, in the Automatic Composting Machines category. Presently Solwearth Ecotech Pvt Ltd has got Branch Offices in all the major cities across India and are planning to start operations in the Middle East and South East Asia in the very near future.

Haroon S (Chairman)

A Top management professional (CEO/COO/Business head /Board member) with expertise of startups and turn-around in group management and operations in IT/Telecom. Our Machines

Product Range

Processing method:

Multi-stage indirect heat & dry decomposition process

Design type: Stand-alone

SE-501

Input Capacity/Batch/Cycle	50 Kg
Processing time*	12-16 hours
Power consumption	2.8 Kw
Dimension (WxDxH in mm)	1150x900x950
Weight	300 Kg
Tank Volume	3 Cu. Feet

*Depending on the wetness of the waste input.

SE-1001

Input Capacity/Batch/Cycle	75 - 100 Kg
Processing time*	16-18 hours
Power consumption	4Kw
Dimension (WxDxH in mm)	1400x1000x1050
Weight	420 Kg
Tank Volume	5 Cu. Feet

*Depending on the wetness of the waste input.

SE-2501

Input Capacity/Batch/Cycle	150-200 Kg
Processing time*	16-22 Hours
Power consumption	6 Kw
Dimension (WxDxH in mm)	1475 x 1190 x 1170
Weight	650 Kg
Tank Volume	9 Cu. Feet

*Depending on the wetness of the waste input.

SE-3501

Input Capacity/Batch/Cycle	350 - 375 Kg
Processing Time	21-25 Hours
Power Consumption	8 Kw
Dimension(W x D x H in mm)	2150 x 1350 x 1400
Weight	900 Kg
Tank Volume	14 Cu. Feet

*Depending on the wetness of the waste input.

Input Capacity/Batch/Cycle

SE-5001

Input Capacity/Batch/Cycle	400-500 Kg
Processing time*	22-26 Hours
Power consumption	9 Kw
Dimension (WxDxH in mm)	2345 x 1400 x 1450
Weight	1100 Kg
Tank Volume	21 Cu. Feet

*Depending on the wetness of the waste input.

SE-1H

Input Capacity/Batch/Cycle	1000 Kg
Processing time*	26-30 hours
Power consumption	12 Kw
Dimension (WxDxH in mm)	3100x1675x1651
Weight	1800 Kg
Tank Volume	41 Cu. Feet

*Depending on the wetness of the waste input.
